

**Save a Kitty FCP
volunteers assist with
TNR education for the
community. TNR is
Trap, Neuter, Return.**

- ***We** train residents on how to humanely trap all the cats in the colony that they are feeding for spay/neuter surgeries, ear-tipping for identification, vaccinations, and other veterinarian services needed for the cats.*
- ***We** raise funds and make appointments with our veterinarians to perform the surgeries and then return the cats to their established outdoor area after a recuperation period.*
- ***We** ask residents to continue feeding, watering, and sheltering the cats for the remainder of their lives while monitoring the cats for health issues.*

Millions of feral and free-roaming cats and kitten routinely die in shelters because they are “un-adoptable.” The fact is, they have a home. It’s outdoors. Save a Kitty FCP advocates for the humane method of TNR.

HELP US, HELP THEM.

Save a Kitty Feral Cat Program

**Save a Kitty
Feral Cat Program
Parkersburg, WV**

**We need your help
with community cats.
GET INVOLVED.**

Feral and Free-Roaming cats are part of our community. Many residents are feeding and caring for these cats. Save a Kitty Feral Cat Program assists compassionate residents by raising funds for spay/neuter surgeries, vaccinations, and to educate the community on caretaking the cats. If you would like to volunteer for our program, please see our website for volunteer opportunities at www.saveakitty.org or call 304.480.9242.

**We Need You...
The Cats Need You.**

Become a Supporter

Your financial support is essential
to sterilize, vaccinate, and
take care of the cats.

Remember, they are victims of a
neglectful society.

Become an Advocate

Let your government know
that allocating more funds
is necessary to sterilize and
vaccinate the cats.
